

Using:

6 Modes: Top LED high-medium-low-flash-SOS -Body COB-Off. Lightly press the end button to get different functions (not so hard that it says "click" then you just turn it on/off).

1. First click: Top led in high brightness
2. Second click: Top led in medium brightness
3. Third click: Top led in low brightness
4. Fourth click: Top led flash
5. Fifth click: Top led SOS modes flash
6. Sixth click: Body COB led lights up
7. Press again: OFF.

Quick switch off. Half press the button can be quick chosen above any modes you need.
